89 Chisau & Lăcăveșanu Str., 14450, Mănești, Ialomița / Giurgiu

Product description

Our products are premium category. The technological process provides for their sterilization so that they can be stored in dry places (below 25 C) and protected from sunlight. The shelf life is 12 months. In the composition we use meat and organs mainly intended for human consumption, fish, proteins of vegetable origin (flours, rice, vegetables), fish fats. All of these are balanced in proportions to comply with the nutritional requirements specific to each species. It should be noted that the current recipe allows us to obtain a product without dyes, without GMOs and without palatants (artificial flavors). Since **DIETETIKA** has a motto: **BALANCE FOOD – LONG LIFE**, all our actions have this goal.
